

ASSORTMENT 2023

HELLO.

Dear customer,

At Brabantia, we are not afraid to take on the big things. In April, we moved into our new headquarters. This sustainable eye-catcher in Valkenswaard is built fully climate-neutral. We are big on sustainability, moving to 100% circular design. And we want to help our consumers to live more sustainable too.

That is why we introduced Make & Take, the new, high-quality collection for food and drinks on the go. From Water Bottle to Bento Lunch Box, and from Soup Mug to Salad Bowl: all reusable, beautiful and handy products for sustainable lunch out of home. The same year, the Sort & Go family was extended with the Stackable Sort & Go. This new, 20L bin is stackable, strong, and goes anywhere! Soft Beige is the new must-have hue for the ReNew Collection. In 2023 we will be introducing the Bo Waste Bins. These small and smart 4-, 7- and 12-litre version of the much-loved Bo Bins, with or without elegant legs, will be a great addition to the bathroom, toilet or anywhere else.

Yet, notwithstanding these big goals, achievements, and – of course – big challenges, we never lose sight of the details. Because in the end, it is always the little things that matter. The moments between people, the things we do every day to improve our products and contribute to a better world, and the details that make the difference between just a bin and i.e., our StepUp Pedal Bin. Or between just a customer and a fulfilling partnership, creating added value on both sides. Because, in business too, it's the little things.

All the best,
Jos van Baal
Brabantia

PS. As always, we're ready to support you with point-of-sale material, digital content packages, consumer advertising, service and web support. And of course, we are happy to help you in any other way. Just let me or a member of my team know.

WELCOME.

WITH LOVE AND CARE.

We love the planet as much as you do, and we want to leave it more beautiful for the next generation. Sustainability is in our nature, and in our products. We are committed to becoming 100% circular in all our designs. It's ambitious, but nothing worthwhile is ever easy.

MOVING TO 100% CIRCULAR DESIGN

Call it a purpose, a mission or even a compulsion. Whatever words you choose, it's a real thing. Caring for others and the environment, caring for the earth that nurtures us, the air we breathe and the water that helps us flourish. We're not perfect, but we're all responsible and we all have a part to play. Some small, some big. It's in everything we do and always has been. We create products where beauty meets sustainability. And right now, it's more important than ever. Why? Because there's no longer a choice between profit or planet, we're entering a period in time where all of us have the chance to make a difference. With every action we take, with every decision we make. That's why we're choosing to leave the next generation a legacy, not a mess. We're making the move to 100% circular design by 2035. How about you?

CRADLE TO CRADLE

Did you know that more than 1,000 of our products have been awarded Bronze level Cradle-to-Cradle certification, and the StepUp and Sort & Go waste bins even received Silver level certification! The Cradle to Cradle Institute assesses products on material quality, material recycling, the use of renewable energy and carbon management, water management and social justice.

The certificates are reviewed every two years. In order to keep the C2C certificate, we need to continuously try to improve our products on these points.
